Final Numbers 2014

December
2015

Dear colleagues

On behalf of all **IRODaT** staff, we are glad to present the final numbers of 80 countries in worldwide organ donation and transplantation activity 2014.

IRODaT mission is to support the healthcare professionals, transplant specialist, researchers and general community to have access to verified and validated information.

We invite you to visit periodically IRODaT website www.irodat.org, where you will find information from other countries and other news regarding international organ donation and transplantation. And also through our [Twitter](#) account, where we already follow you, and we publish our congresses activity and others. Let's get in touch!

Once again, we would like to thank all your effort to develop the **IRODaT** network, and encourage the donation and transplantation activity in your own countries.

IRODaT Team

Life is a gift that must be cared.

2. TRANSPLANTATION ACTIVITY

IRODaT presents -in this section- the transplantation worldwide activity of 2014. It is divided in 7 different figures, which each one represent a different organ transplant activity (kidney, liver, heart, lung and pancreas).

The case of kidney and liver transplant are divided into two figures; one for transplant from deceased donors and the other for transplant from living donors.

All graphs are represented in pmp, and the figures regarding transplant from deceased donors' numbers had included all combinations.

Remind that all this information and figures, as well as this [Newsletter](#) is available in IRODaT website www.irodat.org
